

## How to Use Your Hot Tub Cover Lifter – Hot Spring® CoverCradle®

1. First, unlock the child safety straps on the cover.

2. Break the cover seal by inserting your hand between the hot tub and cover.

3. Fold the cover back, then push one side toward the far corner and lift – this little push makes it easier! The cover will slide to the back of the hot tub.

4. When you are finished using the hot tub, replace your cover and lock the straps.

For more information on Hot Spring CoverCradle cover lifters, read tips, read the informative article, [What Is a Cover Lifter and Do I Need One?](#)

**Be sure to contact your local Hot Spring dealer to order your replacement cover when you see signs of wear on your spa cover.**
