EVERY DAY MADE BETTER®

HotSpring®

YOUR DAILY ROUTINE

*With Hot Spring® Spas, every day is a chance to start fresh,
with heat that awakens, crystal clear water that invites,
and innovation that you can feel—inspiring you to do more,
experience more, and live more.*

At the end of the day, we'll help you get ready for what's next.

UNLEASH YOUR BEST SELF.™

Get Immersed

EVERY DAY MADE BETTER®
SINCE 1977

With over four decades of experience and almost two million hot tubs sold, Hot Spring Spas has earned its place as the industry leader by providing customers with the Absolute Best Hot Tub Ownership Experience®, through innovation, uncompromising quality, and a focus on wellness and vitality.

INNOVATION IS AT OUR CORE

Since 1977, when Hot Spring Spas introduced the first fully insulated hot tub with underwater lighting and top-loading filters, we've continued to raise the bar with breakthrough technologies like Moto-Massage®, the world's first moving hydrotherapy jet, and the FreshWater® Salt System, the worry-free way to keep spa water clean, fresh, and natural-feeling. Our newest innovation, FreshWater IQ, applies cutting-edge technology to make water care easier than ever.

WELLNESS, REDEFINED

Wellness is at the core of everything we do. Our hot tubs deliver benefits that extend beyond relaxation to provide well-being, stress relief, and vitality. Enjoy the soothing warmth and hydromassage, alone or with friends and family, for a healthier, happier you.

QUALITY YOU CAN COUNT ON

Every Hot Spring spa is engineered to provide relaxation and vitality, now, and for decades to come. Experience the legendary massage, easy water care, leading energy efficiency, and unmatched customer care that has made us the world's best-selling hot tub brand.

UNLEASH YOUR BEST SELF™

We believe in the power of warm water and massaging jets to help you feel great, sleep well, and stay active. Making a warm soak part of your daily routine provides vitality to Unleash Your Best Self, at work, at home — everywhere!

ENGINEERED TO KEEP YOU MOVING

Thoughtfully placed jets target specific muscle groups from neck and shoulders to back, calves, wrists, and feet. Hot Spring spas deliver a winning combination of buoyancy, heat, and hydromassage to speed up muscle recovery and boost performance during exercise and everyday activities. Warm water massage increases blood flow, improving flexibility, and releasing endorphins that help reduce pain.

SLEEP WELL & WAKE UP ENERGIZED

Relaxing in a hot tub in the evening helps you wind down and de-stress. It also helps physically prepare you for sleep by elevating your body temperature, releasing melatonin, and calming brain activity so you can enjoy a good night's rest naturally and awaken refreshed!

BETTER CONNECTION

Spending distraction-free time in a hot tub invites you to connect on a deeper level with the people who matter most in your life. The benefits flow well beyond just your time in the water, they fill your life with moments that fuel your best relationships.

THE HOT SPRING ADVANTAGES

Legendary Massage

Smooth, ergonomic seating conforms to your body, perfectly positioning you for maximum stress relief. A variety of jets, including the patented Moto-Massage® DX moving jet, are strategically placed to target muscle groups from neck and shoulders to back, calves, wrists, and feet.

Personalized controls further enhance your experience. The Comfort Control® System lets you fine-tune the mix of air and water, while the SmartJet® System lets you customize water flow to different jet groups and seats.

Worry-Free Water Care

Your best hot tub experience begins with pure, crystal-clear water that looks and smells fresh, each and every time.

From innovative, low-maintenance filtration that effectively removes impurities to accessories that reduce contaminants in your fill water, we've simplified water care so you can spend more time enjoying your spa, and less time maintaining it.

The ground-breaking FreshWater® IQ System regularly tests your spa water and displays clear instructions to simplify water care maintenance. It combines the power of salt and the revolutionary technology of our Smart Monitoring System so you can enjoy clean, natural-feeling water and fewer water changes.

Low Monthly Operating Costs

Every component of our Energy Smart® System is designed to work together to ensure your spa is always hot and ready - while keeping energy costs low.

With features like high-density insulation that locks in heat; our SilentFlo 5000® Circulation Pump that uses less energy than a 40-watt light bulb; a patented pump shroud that recycles heat to reduce energy consumption; and custom-fit WeatherPro® covers with an exclusive hinge seal, all Hot Spring spa models meet or exceed stringent California Energy Commission (CEC) and APSP 14 energy efficiency standards for portable spas.

MONTHLY COST ESTIMATES
Rate x Kilowatt Hour

City	Temp	kWh	Rate	Cost
Miami, FL	75 °F / 23 °C	100	$0.10	$10.00
Las Vegas, NV	70 °F / 21 °C	122	$0.08	$9.76
Tulsa, OK	60 °F / 15 °C	166	$0.08	$13.28
Seattle, WA	55 °F / 12 °C	188	$0.08	$15.04
Chicago, IL	50 °F / 10 °C	210	$0.10	$21.00
Calgary, Canada*	40 °F / 4 °C	253	$0.11	$27.83

Temp: Approximate annual mean ambient temperature
kWh: Approximate average kilowatt hours per month to operate spa**
Rate: Approximate average rate charged per kilowatt hour in dollars***
Cost: Approximate average monthly energy cost to operate spa**

* In Canadian dollars; based on average rates from the Alberta Utilities Commission, March 2022.

** Based on a medium-sized Highlife Collection spa set at 102 °F used six times per week – 15 minutes with jets on and 15 minutes with jets off during each use. Testing conducted by independent third-party certified laboratory in a controlled environmental chamber at multiple ambient temperatures using continuous data acquisition monitoring of watts, temperature and humidity, with all equipment calibrated to ensure data accuracy. Individual energy consumption will vary depending on set water temperature, actual consumer usage patterns, and actual environmental ambient conditions.

*** Based on rates from the U.S. Energy Information Administration, November 2021. Rates subject to change. Check with your local electricity provider for your current rate.

LIQUID JUST GOT SMARTER

Introducing FreshWater® IQ, the most intelligent salt water system on the planet.

FreshWater IQ is a smart, in-line water care system that regularly tests your spa water and displays clear instructions to help you maintain clean, natural–feeling water. Now you can tell at a glance when chemicals are needed, taking the guesswork out of keeping your spa water balanced and ready to enjoy.

freshwater® IQ

Smarter
WE PUT THE IQ IN LIQUID

Our patented smart monitoring technology, found only in the FreshWater IQ System, regularly tests your water every hour with more accuracy than test strips, and provides clear, on-screen instructions when adjustments are needed. With a glance at your spa's control panel, you'll see what's needed to keep your spa water fresh, balanced, and ready to enjoy.

Cleaner
BETTER WATER. FEWER ADDITIVES.

FreshWater IQ uses the FreshWater Salt System to generate the perfect amount of chlorine. With fewer chemicals, water feels softer and gentler on eyes and skin, and can stay clean and fresh up to a full year*, conserving water and saving money. The FreshWater Salt System works with our proprietary 100% no-bypass filtration system to help you experience the best spa water possible.

Simpler
FINALLY, WATER CARE MADE EASY

Take the guesswork out of water care. Easy-to-follow on-screen recommendations help you maintain clean, natural-feeling water.

Better
THE MOST COMPREHENSIVE WATER CARE SYSTEM AVAILABLE

Fully integrated and easy-to-use, FreshWater IQ helps you keep your spa water clean, balanced, and natural-feeling for *The Absolute Best Hot Tub Ownership Experience®*.
*Many factors affect the life of spa water, such as bather load and water chemistry. When these factors are accounted for and the spa is properly maintained, the FreshWater Salt System will keep water clean and clear for up to a full year.

CHOOSE YOUR SPA

With three distinct Collections and a wide range of models, sizes, and colors, there's a Hot Spring® spa that fits you and your space.

HIGHLIFE® COLLECTION

Our best to unleash your best. Legendary massage, leading energy efficiency, and crystal clear water for the ultimate hydrotherapy experience.

LIMELIGHT® COLLECTION

Bring your hot tub experience to new levels with the perfect balance of form, function, and value.

HOT SPOT® COLLECTION

The quality, innovation, and performance you expect from a Hot Spring spa, priced to fit your budget.

HIGHLIFE® COLLECTION

Our Best. To Unleash Your Best.

For those who expect the most out of life, the Highlife Collection is everything a hot tub can be. Exceptionally designed. Intentionally engineered. Generously appointed. It's our very best.

Shell: Alpine White

Cabinet: Java
Shell: Alpine White

LEGENDARY MASSAGE

BACK MASSAGE LIKE NO OTHER

Our very best spas feature our most legendary innovation—Moto-Massage® DX jet. Patented moving jets provide powerful water streams that sweep up and down your back for a massage like no other.

PERFECT POSITIONING

Sculpted seats cradle your body's contours in a natural position to help relieve pressure and deliver a better spa experience. Each jet is perfectly and intentionally positioned to target specific muscles, resulting in a distinctive massage from your neck to your shoulders, back, wrists, calves, and feet.

PERSONALIZED CONTROL

Simply adjust the jet face with the Comfort Control® System to personalize each soak with a powerful massage or a soft touch. Customize the waterflow to different jet groups or seats throughout the spa with the SmartJet® System.

EASY WATER CARE

SMARTER. CLEANER. SIMPLER. BETTER.

Available on all Highlife Collection spas, FreshWater® IQ is a smart, in-line, water care system that regularly tests your spa water and displays clear instructions to help you maintain clean, natural-feeling water. At a glance, you can tell when chemicals are needed, taking the guesswork out of keeping your spa water balanced and ready to enjoy.
100% CLEAN, 100% OF THE TIME

All water in a Highlife Collection spa is filtered 100% of the time, meaning every drop of water passes through filters, even when you're soaking with the jets on.

The key is our proprietary no-bypass filtration system paired with our exclusive high-flow Tri-X® filters featuring 3D technology that provides a more effective filtration area than traditional paper filters of the same size to filter significantly more water.

Every drop of water is cleaned every time it moves, no exceptions. You simply will not find cleaner water in any other spa.
ENERGY SMART® SYSTEM

Keeps Spa Water Hot and Energy Bills Low

Through a combination of innovations, Highlife Collection spas offer the very best in energy-saving design so that your spa will be hot and ready when you are.

ENHANCED ENERGY EFFICIENCY

Built for durability and long life, each Highlife Collection spa features a polymer structure, multiple layers of high density foam insulation, and an insulated base pan, eliminating gaps and voids while locking in heat and maximizing energy efficiency.
DEDICATED CIRCULATION PUMP

The SilentoFlo 5000® circulation pump is a dedicated pump that continuously circulates spa water 24 hours a day, while using less energy than a 40-watt light bulb. This eliminates the need to rely on high-powered jet pumps to circulate water, reducing energy costs and wear.
RECYCLED HEAT

A Hot Spring-exclusive patented pump shroud captures heat generated in the spa's equipment compartment and recycles it, transferring heat to the water to reduce energy consumption.

LOGO LIGHT INDICATOR

Be confident your spa is hot and ready before you even step outside with the Ready Indicator Light in the Hot Spring® logo. It also doubles as a valuable diagnostic tool, letting you know when your spa needs attention.

STRIKINGLY BEAUTIFUL

Bold, Yet Elegant. Fresh, Yet Timeless. Graceful, Yet Powerful.

The Highlife® Collection redefines how a hot tub looks. Elegantly contoured corners reveal accent lights that beckon you closer. Stainless steel and brushed metal finishes add richness and refinement. Clean lines, elegant appointments, and durable materials all work together in harmony to create a unique look that both inspires and endures.

Personalized Massage

Thoughtfully placed jets target specific muscle groups, from your neck to your shoulders, back, calves, wrists, and feet. In Limelight Collection spas, you have a variety of choices for a complete, full-body massage in sculpted seats that position your body to relieve stress and keep you in place.

Our Comfort Control® System lets you adjust intensity, while our SmartJet® System directs water flow to specific jet groups for a truly personalized massage experience.

Energy Efficiency Elevated

Exclusive FiberCor® insulation fills the cabinet completely to a density four times greater than the half-pound foam used in most spas on the market. Combined with Energy Smart® features like the SilentFlo 5000® Circulation Pump, a patented pump shroud that recycles heat, and the No-Fault® heater, Limelight Collection spas keep water hot and energy costs low.
Dual-Action Filtration

Our unique two-filter design provides for more effective, constant filtration. One filter is dedicated to the circulation pump. The other is dedicated to the jet pumps to clean water when the jets are running. Working together, these two filters provide more total effective filtration area to keep water cleaner with less maintenance.

See Things in a Whole New Light

Limelight Collection spas feature our highest count of lights for a stylish soak. The interior lighting system features multiple points of light placed to accent the contours of the spa shell. Two exterior LED light bars integrate with the front corners of the spa, creating a uniquely elegant look that is unlike any other. Match the color to your mood by selecting the hue and brightness of your choice or cycle through all six vibrant choices.

READY WHEN YOU ARE

You'll always know when your spa is ready – even from a distance. A color-coded Ready Indicator Light shows at a glance when your water is at the set temperature. The light will indicate if your spa needs maintenance, a filter change, or service.

HOT SPOT® COLLECTION

Legacy of Legendary Massage

Experience the complete massage you expect from a Hot Spring® spa in the Hot Spot Collection. A variety of jet types, powered by our reliable Wavemaster® pump, work together with personalized control to deliver a legendary massage.

The SX and TX models feature the exclusive, revolutionary Moto-Massage® moving jet with a warm stream of water that sweeps up and down the length of your back for a truly unparalleled hydromassage experience.

Easy Water Care

The simpler, cleaner, fresher way to hot tub™. The FreshWater® Salt System is a revolution in water care. Water is sanitized with a titanium cartridge that automatically generates chlorine from salt for soft, natural-feeling water without harsh odors, itchy skin, or irritated eyes. This breakthrough technology is the simple way to keep your hot tub water clean and feeling soft for up to a full year.*

Energy Efficiency

Keeping water hot and energy costs low, each Hot Spot Collection spa features FiberCor® insulation, completely filling the cabinet to a density four times greater than the half-pound foam used in most spas on the market. Paired with custom-fit WeatherPro® covers with an exclusive hinge seal, you'll soak with confidence knowing your Hot Spot Collection spa meets or exceeds stringent California Energy Commission (CEC) and APSP 14 energy efficiency standards for portable spas.

*Many factors affect the life of spa water, such as bather load and water chemistry. When spa water is properly maintained considering these factors, a 3-pack of FreshWater Salt System cartridges will keep water clean and clear for up to a full year.

EYE-CATCHING DESIGN

Each spa creates a dynamic backyard focal point with distinctive design details. Subtly embossed cabinets give the look of natural materials yet provide the durability of advanced composites. Choose between three stunning cabinet colors that can be combined with a variety of shell finishes to create a look that complements your home.

Details Deliver a Difference

Multi-color LED lights inside and out** accentuate the design of your spa while setting the mood with a single color or revolving display.

Convenient floor drain makes scheduled water changes a breeze.

The large bar top offers space to place your favorite beverage, phone, or other hot tubbing accessory within reach throughout your soak.

Sculpted seating contours your body and integrated pillows cradle your head and neck to create a comfortable soaking experience.
Backed by a decades-long reputation for outstanding quality and value, you can count on years of enjoyment and reliability with your Hot Spot Collection hot tub.

**Exterior lighting not available on SX and TX models.

NECESSORIES®

Upgrade your hot tub experience with high-quality accessories exclusively designed for your Hot Spring spa.

WeatherPro® Covers

Available in contemporary shades to complement any home and outdoor space, WeatherPro covers feature durable, fade-resistant materials that provide superior resistance to the elements, while meeting the rigorous energy standards set by the California Energy Commission (CEC) for portable spas. These custom-fit covers lock in heat to save energy and ensure that your spa stays warm and ready for your next soak.

Cover Lifters

Our patented cover lifter systems make opening and closing the spa cover simple, helping maintain your hot tub, extending the life of your cover, and, most importantly, making it easier for you to enjoy your spa every day.

COVERCRADLE®

For the ultimate in ease, this robust system offers an ultra-smooth gliding mechanism and the power of pneumatic springs to support covers on even our largest spas.

Requires 24" minimum clearance.

UPRITE®

Ideal for tight spaces and recessed spa installations, the UpRite cover lifter also provides an element of privacy by holding your folded cover in a vertical position.

Requires just 7" minimum clearance.

LIFT 'N GLIDE®

The Lift 'n Glide is easy to operate — simply lift the cover, glide it back, and enjoy your soak.

Requires 14" minimum clearance.

Spa Side Enhancements

Thoughtful spa side additions help elevate your hot tubbing experience.

UMBRELLA

Shade your spa with the 360˚ rotatable spa side umbrella, featuring a 9'9" diameter canopy.

TOWEL TREE

Keep your towel within reach on the stylish and easy-to-assemble aluminum towel tree.

HANDRAIL

Safely enter and exit your spa with our sturdy handrail that swings to allow access from inside and outside the spa. It also features a battery-powered LED light for added convenience and safety.
Steps

Complete your Hot Spring spa set up with steps that make it easier to get into and out of your hot tub. Our steps are designed to match your Hot Spring spa with coordinating colors and cabinet matching materials.

Limelight® Collection

Hot Spot® Collection

Highlife® Collection

Technology that Simplifies

CONNECTED SPA KIT & HOT SPRING® SPAS APP

Control and monitor your spa from your smartphone with the Hot Spring Spas app. Powered by the Connect Spa Kit, the app allows you to control your spa any time from virtually anywhere. Remotely control spa functions like FreshWater® Salt System, jets, lighting, and more. Have peace of mind knowing what's happening with your spa even when you're not at home. Monitor regular maintenance needs and locate your closest dealer to schedule service. All from your mobile device.

Available on most Hot Spring spa models built after 2014.

The Connected Spa Kit is a remote system that relies on connections of Wi-Fi components between the spa and a home network. The system is for the convenience of the hot tub owner and does not replace regular physical inspection and/or maintenance of the hot tub.

Technology that Enhances

MUSIC OPTIONS

Enjoy audio entertainment with your Hot Spring spa. When you opt for a music-ready spa, you get built-in speakers. You can add a wireless Bluetooth® audio system, which allows you to connect your spa to your home entertainment system and other devices. Kick up your music experience with a subwoofer, too, and you might never leave the water.

Technology that Invigorates

COOL WATER TEMPERATURES

Take a revitalizing dip on a hot day, or enjoy cold-water therapy any time with the CoolZone™ System that can chill the water as low as 60° F. Depending on ambient temperature, the system can also improve energy efficiency during normal operation by reducing the amount of time the No-Fault® heater operates. This can translate to additional energy cost savings.

Available on select Highlife and Limelight Collection models.

THE ABSOLUTE BEST HOT TUB OWNERSHIP EXPERIENCE®

Hot Spring Leads The Way

As the world's best-selling spa brand, Hot Spring earned its reputation for quality and innovation. But we don't stop there. Our focus is on providing The Absolute Best Hot Tub Ownership Experience® through unparalleled massage, worry-free water care, energy saving features, and unmatched customer care. With a Hot Spring spa, you can relax today, tomorrow, and long after your purchase.

45+ Years of Excellence ｜ 1.8 Million+ Spas Sold ｜ 50 States & 70 Countries

The Best Retailer Partners
